Problem

64% of the 600 million plant-owning households worldwide struggle to keep their plants alive due to the lack of critical knowledge needed to provide proper maintenance

Solution

A plant monitoring device that tracks five critical plant health metrics and delivers real-time, easy-to-understand care recommendations through a subscription-free web dashboard

Prototype

Operations

Address: 855 Drasnam Dr, Building 3, Morrisville, NC 27560

Capacity (units/year): 320,000

Finance

Price/unit	\$60.00
Cost/unit	\$32.73
Revenue	
Year 1	\$150,000
Year 2	\$1,500,000
Year 3	\$15,000,000
COGS	
Year 1	\$81,825
Year 2	\$818,250
Year 3	\$8,182,500
Total Assets	
Year 1	\$527,003
Year 2	\$2,508,168
Year 3	\$13,325,908
Valuation	\$500K investment for 20% equity, \$2.5M valuation, \$45-75M exit potential
IRR	38.2%
Payback Period	~ 7 to 9 months
Breakeven units	1,965 units
